SUMMARY

Computer Science Engineering graduate with hands-on experience in **Java, Spring Boot, Hibernate, JPA, REST APIs, SQL, MySQL, and PostgreSQL**. Skilled in developing **web applications, backend services, database-driven applications, and CRUD operations**. Seeking an entry-level **Java Developer** role to apply technical and problem-solving skills.

TECHNICAL SKILLS: Java, SQL, Spring Boot, Hibernate, JPA, REST APIs, HTML5, CSS3, JavaScript, PostgreSQL, MySQL, Git, GitHub, Maven, Postman

CORE: Object-Oriented Programming (OOP), Data Structures & Algorithms, CRUD Operations, Database Management

EXPERIENCE

QSpiders — Java Full Stack Developer

Bhubaneswar, Odisha | June 2025 – June 2026

- Developed web applications using Java, Spring Boot, REST APIs, and SQL following a structured layered architecture.
- Built responsive and user-friendly web interfaces using HTML, CSS, and JavaScript.
- Designed and managed relational databases using MySQL and PostgreSQL, including tables, relationships, and SQL queries.
- Implemented backend functionality using Spring Boot, Hibernate/JPA, and RESTful APIs.
- Performed API testing, debugging, and error handling using Postman and development tools.

PROJECTS

Enhancing Rental Web Applications with Machine Learning & NLP

- Developed a rental property analysis and matching application using Python, Machine Learning, and Natural Language Processing (NLP).
- Performed data preprocessing and exploratory data analysis to identify patterns in rental property information.
- Implemented sentiment analysis on user reviews to extract useful information for property evaluation.
- Built a property matching approach using property features and user requirements to improve search results.
- Evaluated Machine Learning models using appropriate classification and performance metrics.

Smart Platform Allocation System

- Developed a railway platform allocation application using Java, Spring Boot, Hibernate/JPA, and PostgreSQL.
- Implemented REST APIs for managing train schedules, arrival/departure information, and platform assignments.
- Designed database entities and relationships for efficient storage and retrieval of train scheduling data.
- Developed backend logic to assign available platforms based on train schedule information.
- Tested and validated REST APIs using Postman and integrated the backend with a web-based interface.

Smart Library Portal

- Developed a web-based library management application for managing books, users, and issue/return records.
- Implemented CRUD operations and database connectivity using Java, Spring Boot, and SQL.
- Developed search functionality to help users efficiently find books and library records.
- Created a responsive user interface using HTML, CSS, and JavaScript.
- Implemented basic book recommendation functionality based on users' previous borrowing history.

EDUCATION

Institute of Technical Education and Research, S'O'A University

Bhubaneswar

Bachelor of Computer Science

2021 - 2025

- Score : 7.79 CGPA / 77.9%

Shakti Higher Secondary School

Cuttack

Class XII

2019 - 2021

- Score : 69.33 %

Motto Nodal High School

Bhadrak

Class X

2019

- Score : 61.33 %

CERTIFICATIONS:-- Java Full Stack Development
